

PWR!Moves

What is a PWR!Moves Therapist?

PD-specialized physical and occupational therapists who implement comprehensive PD-specific functional skill training interventions. They provide consultative, proactive, restorative and skilled maintenance services with the goal to put off functional decline across disease severity. They are able to target multiple motor and non-motor symptoms. PWR!Moves therapists can address your personal goals and needs, create task-specific activities to target gait, agility, strength, ADL, freezing, dexterity, posture and more.
